

Zehntner Gloss

ZGM 1130

Touchscreen Display for all Gloss Ranges

Accuracy

Stable and reliable results..

Ease of use

Features single, multiple and even continuous scan gloss measurements.

Versatility

Versatile measuring and data analysis software.

Software / Workspace App

PC Software	Screening Eagle Workspace
Display	2.4” touchscreen
Memory	1 million measurements

Processing Unit / Sensor

PC Software	Screening Eagle Workspace
Display	2.4” touchscreen
Memory	1 million measurements
Measurement Modes	Sensor adaption V(λ)
Measuring Geometries	1-angle: 60° 2-angle: 20°, 60° 3-angle: 20°, 60°, 85°
Measuring Range	0 - 2'000 GU
Measuring Accuracy	0 - 199.9 GU: ± 0.1 % 200 - 2'000 GU: ± 0.2 %
Weight	420 g (0.93 lbs)
Battery	Lithium Ion

SWISS MADE

Present in +100 countries, we serve inspectors and engineers all over the world with the most comprehensive range of InspectionTech solutions, combining intuitive software and Swiss-manufactured sensors.
